## Mikes Electric – COVID-19 Update

# Mikes Electric to maintain Bow Valley electrical services amid COVID-19 concerns

Valued Bow Valley Community,

As the coronavirus (COVID-19) pandemic unfolds, the Mikes Electric team is dedicated to serving the Bow Valley community, with safety, reliability, and continuity among our highest priorities.

In response to a March 17 news release by the Town of Banff (via Banff.ca) – that declared a Local State of Emergency in support of the Province of Alberta’s efforts to limit the spread of COVID-19 – Mikes Electric would like to further reassure the community we serve, that during these turbulent times, they will continue to receive essential utility services (water, sewer, electrical).

Mikes Electric is committed to serving the local community, and we will continue to closely monitor the COVID-19 government guidelines that have been set out by the Public Health Agency of Canada, so we are able to ensure that the critical societal role of the electrical industry remains uninterrupted.

As Banff and the Bow Valley’s most trusted electrical service, Mikes Electric pledges to power our treasured community through this global time of unease, so we are able to stay well-connected, albeit from a distance for now.

To stay up to date with us on the latest and ongoing news concerning any changes that may affect you or your business, please visit:

For all inquiries, please contact us at:

(403) 762-2871 or [info@mikeselectric.ca](mailto:info@mikeselectric.ca).

We wish you all the best in safety, and health.

Thank you for choosing Mikes Electric.

– M.E. Team.
